HANGING ON VEHICLES

We will have a Wilson sweep throughout the west. Wyoming is sure to elect Kov. Kendrick United States senator to and to go for Wilson. Utah will give Wilson its electoral vote and the fight between Judge King, the democratic candidate there, and Senator Sutherland is neck and neck. Nebras-ka is surely democratic.

"Without naming them, I feel confident we will gain not less than two other United States senators in these states west of the Mississippi.

"I do not believe that conditions which have brought about the change in these western states have failed to have their effect in the east.

"Hughes has made absolutely no favorable impressions, and the democrats who are managing our campaign would welcome him most cordially if he could be persuaded to come to their states again.

"A few republicans whom I met are not talking for publication, but were almost 'panicky' over conditions in the states with which they were most familiar and they are fighting desperately to retain control in such former re-

Strict enforcement of the regulation against children hanging or jumping on moving vehicles will be asked of the police in a resolution that will be presented at the November meeting of the Washington Safety First Association. Dr. L. D. Waiter, vice president of the association, last night told a Star reporter that he would prepare such a resolution and endeavor to have it made a special order of business.

"Safeguarding the children against injury and death," Dr. Waiter stated, "is one of the most commendable things a safety association can do, and I hope the campaign of publicity that is being conducted by The Star will produce good results.

"It is only by keeping such problems bound to follow."

Dr. Waiter said he had noticed many children on roller skates and skipmohiles holding to horse-drawn and motor vehicles for the sake of at little enjoyment. "Such children," he added, "little realize the danger to which they submit themselves, and think only of the function of the state of the same of th
